Here  Now  This moment

What is Possible is Possible

To shift into a new reality without complaints...you don't need to understand the problem. Details are not required.

I'll show you how to easily do it....

Transformation on your terms

How to Play with Universal template energy with Intent

Why I am excited you are reading this... The day before this article was due for publication, my computer crashed. One hour before the article was due for delivery, the computer was still down...

Intent on delivering on time, I put my hands on each side of the computer. I set my intent for the Universal template energy to make the computer work.

Within 15 seconds the computer began functioning perfectly.

Significant facts...The intelligence within Universal energy can process up to 11 million bits of information per second. The method works...

Wonderful things can happen, including relaxation, healing, a consciousness shift, transformation, or whatever else is possible...

What is Possible is Possible

Trust... Intelligence is structured in Universal energy. The intelligence knows exactly what you want, need and how to deliver at a speed of up to 11 million bits of information per minute. The point is: It is safe to let go into being and trust.

The following is useful: 1) Letting go... in faith... from a heart space of authentic intent, 2) melting your attention with this energy, 3) Adding sprinkles of gratitude and love, or an inner smile.

Control...

The only thing we have control of is our intent, playful imagination and willingness to let go. The moment you let go and be with Universal template energy, you have completed your job.

“Thy Will be done”...

Once you acknowledge what’s so, what you want and activate universal template energy...”Thy Will be done”... trust... just be for a few seconds... be without expectations... detached and innocent... that’s how a child plays.

To take it to the next level...give it all up...play and be.

What there is to give up...

Give up understanding! Give up trying. Star Trek’s Yoda said, “Do or don’t do, there is no trying.” The less you know, the less you understand, the better.

If you read this far...

You get it. You can do it. It is as easy and effortless as experiencing balance on a bicycle for the first time... What is possible is possible...
