On Enlightenment

With the addition of new information, and the advancement of consciousness overall, the likelihood of reaching advanced states of consciousness one thousand percent greater than before.

~ David R. Hawkins, M.D. Ph.D.

The following quotes are from David R. Hawkins, M.D. Ph.D. book, *Transcending the Levels of Consciousness: The Stairway to Enlightenment*. This book has Richard's Five Star Book Recommendation, as does Dr. Hawkins first book, *Power vs. Force*.

. . . any student can suddenly find oneself at an extremely high level with no advanced warning.

One of the reasons for the seemingly endless delays on the way to Enlightenment is doubt, which should be surrendered as a resistance. It is extremely rare for a human to be committed to a spiritual path to the degree of seriously seeking Enlightenment, and those who do make the commitment do so because they are destined for Enlightenment.

...commitment to Enlightenment now becomes like a magnet pulling one towards it, and the rate of evolution is up to the individual's willingness to surrender resistances.

Enlightenment is not a condition to be obtained; it is a certainty to be surrendered to, for the Self is already one's Reality. It is the Self that is attracting one to spiritual information.
